STRATOLINER S-41 WHITE DUST SUPERNOVA

Have you ever been to space? This one has. It's one of only thirteen watches that have seen the world from space. Together with the Swedish Space Center we tested 13 Supernova Gold watches on a sounding rocket in space.

What's so special:

- Only 13 pieces available upon application
- Rocket flown and space approved
- Stratosphere tested Manufacture Calibre
- Column Wheel Chronograph
- Dust Dial with Superluminova® markings
- Smoked Sapphire Caseback, spaceship window
- 18k Gold Inlays
- Golden Superluminova®
