

WATER RESISTANCE CHART

Each and every OMEGA watch in the current collection is tested in water during production up to its relative pressure reference.

All OMEGA bracelets and straps are manufactured to allow daily contact with water. For intensive in- and underwater usage, we only recommend our metallic bracelets and rubber straps.

OMEGA DEPTH CONVERSION SCALE			
OMEGA PICTOGRAM	METRIC SCALE Bar / Meters (m)	IMPERIAL SCALE Pound per square inch (psi) / Feet (ft)	WATER RESISTANT ABILITY
	3 bar / 30 m	40 psi / 100 ft	WATCHES RESISTANT TO WATER UP TO SPECIFIED DEPTH
	5 bar / 50 m	70 psi / 167 ft	
	10 bar / 100 m	140 psi / 330 ft	
	12 bar / 120 m	170 psi / 390 ft	
	15 bar / 150 m	210 psi / 500 ft	
	20 bar / 200 m	280 psi / 660 ft	WATCHES RESISTANT TO WATER UP TO SPECIFIED DEPTH FITTED WITH ADDITIONAL DEVICES SUITABLE FOR UNDERWATER USAGE
	30 bar / 300 m	430 psi / 1000 ft	
	60 bar / 600 m	850 psi / 2000 ft	
	120 bar / 1200 m	1700 psi / 4000 ft	

Notice: A watch's water resistance cannot be permanently guaranteed. It may notably be affected by the ageing of gaskets or by a shock on the case.
As stipulated in our «Operating Instructions» manual, we recommend you have the water resistance of your watch checked once a year by an authorized OMEGA Service Center.
